Friday, November 10th

7:30 a.m.: Bus Call

We will meet in the hotel lobby.

8:00 - 10:00 a.m.: Clemson University (Breakfast from Callie's Hot Little Biscuits)

SCE&G Energy and Innovation Center

1250 Supply Street, North Charleston, SC 29405

Presenter: Jim Tuten, M.Sc., P.E., Director, Facilities Systems

The SCE&G Energy and Innovation Center at Clemson University houses the world's most advanced wind-turbine drivetrain testing facility. The mission of the facility is to provide high value, high quality, and cost-competitive testing services to industry that will lead to lowering the cost of energy delivered by wind power through highly-accelerated testing of next-generation wind turbine drive-train technology. During this presentation and tour, staff will discuss the role technology plays in the advancement of wind-based energy, and the role cybersecurity plays in the continued advancement of energy research.

10:30 - 11:30 a.m.: Sentar

1060 E. Montague, Suite 201 Charleston, SC 29405

Presenters: April Nadeau, Vice President, Nathan Swab, Cybersecurity Compliance Expert, Joseph Sabin, J.D., CISSP, Cyber Security and Health IT Portfolio Manager

Sentar is a Woman-Owned Small Business at the forefront of cybersecurity technology and services. Their innovative cyber security technologies protect network and host computer resources from cyber attackers and malicious insiders. Staff will discuss the challenges of creating comprehensive cyber programs, and the related policy issues.

12:00 - 2:00 p.m.: Apple Data Privacy Team (Lunch from Lewis Barbecue)

Trident Technical College

7000 Rivers Ave, North Charleston, SC 29406

Presenter: Chris Betz

Subject-area experts from Apple's data privacy team will discuss issues related to privacy, security, and encryption. Staff will discuss the role of platform companies in providing security methods and capabilities to the small companies that utilize platform's development tools to create and innovate.

2:30 - 3:30 p.m.: Soteria

115 Central Island Street Suite 300 Daniel Island, SC 29492 Presenters: Glenn Starkman, Paul Ihme, Christopher O'Rourke

Soteria is a Service-Disabled Veteran-Owned Business (SDVOB) headed by experienced former members of the NSA, CIA, DoD, and Fortune 500 companies. Their mission is to operate at the highest-level of discretion while helping businesses recover from security incidents while allowing them to maintain business operations. Staff will discuss veteran retraining efforts in cyber security and technology and the related policy issues.

4:00 - 5:00 p.m.: PhishLabs

1501 King St, Charleston, SC 29405

Presenter: John LaCour, Founder and CTO

PhishLabs provides 24/7 services that help organizations protect against the cyberattacks targeting their employees and their customers. Using a powerful combination of proprietary technology, specialize security operations, and deep threat intelligence, they detect threats early in the attack process and take rapid action to mitigate attacks before damage is done. In doing so, we reduce the risk of compromised systems, data breaches, and online fraud. Staff will discuss the role small companies play in cybersecurity and the relationship between fortune 500 companies and small companies, and the roll Congress can play to continue to encourage these partnerships.

5:30 - 6:30 p.m.: PokttDok

100 Calhoun St, Suite 210, Charleston, SC 29401

Presenters: Ted Tanner and Chris Kroner

PokitDok is a cloud-based platform for healthcare purchases, connecting consumers directly with practitioners in a transparent, e-commerce experience. PokitDok provides enterprise access to market-driven provider, treatment, and pricing information for employers, payers, and heath networks seeking to reduce expenses and capture lost reimbursement via their API. Additionally, PokitDoc provides an e-commerce storefront for practitioners seeking to market their services and enable consumers to pay for treatment

up front. Staff will discuss the role that cybersecurity plays in healthcare and in health IT, along with related policy issues and regulatory barriers.

7:00 – 9:00 p.m.: Dinner and Presentation Burwell's Stone Fire Grill 14 N. Market Street, Charleston, SC 29401 Presenter: SC Cyber, ISHPI

SC Cyber is a statewide initiative, based at the University of South Carolina and with partners across all levels of academia, industry, and government. SC Cyber works to create and offer programs for training and workforce development, education, advanced technology development and commercialization, and critical infrastructure protection. Staff will discuss the efforts of the Charleston community widely to bring more technology companies to Charleston and provide resources for these companies to innovate and grow within the city including the development of CS programs in K-12 schools and universities.

ISHPI works with government agencies to fortify national preparedness, agility, strength and advantage in the cyber domain.

Saturday, November 11th

9:15 a.m.: Bus Call

We will meet in hotel lobby

American Airlines Flight 4626 Departing CHS 11:40 am - Arrive DCA 1:13 pm
